Two attached houses to renovate in the Figueira da Foz region.

These two houses are located in a small village, very beautiful and well maintained, where there is some local commerce and about 10km from Figueira da Foz, a city where you can find, in addition to the beautiful beaches and casino, everything else you need for your day-to-day, including excellent road and rail connections, to all directions in the country.

These two houses are somewhat degraded, especially the inside, where a complete renovation will be necessary, thus allowing each person to choose, redesign and customize the way these spaces will be in the future.

The exterior walls, and the beautiful façade, with a lot of traditional charm, still remain firm, but will also need an intervention in order to maintain solidity.

At the rear there are windows overlooking the beautiful municipal garden, once part of a beautiful century-old palace. In fact, in this village, there are several beautiful examples of magnificent Portuguese historic architecture, which gives this village a unique singularity and charm.

The beautiful city of Figueira da Foz and its beaches of infinite sands, it's about 10km, and quickly and easily you can get there from your new home.

Come and see this great business opportunity, for investment / income or for a family home.
