Discover the potential of this expansive property located near Chamusca, with fast access to Torres Novas, Entroncamento, and Santarém. With Lisbon just over an hour away, this property offers both seclusion and connectivity. This property features a vast urban footprint ideal for farmsteading, with extensive land suitable for agricultural ventures. The existing infrastructure includes a residential house and substantial additional buildings formerly used for commercial purposes. These facilities lend themselves to various uses, from agricultural projects to potential tourism developments like additional homes or cabins. Imagine starting an off-grid or low-impact lifestyle in the beautiful northern Alentejo region. The main house needs some work, offering a great project for those looking to create a tailored living space. Alternatively, the land and existing buildings provide a blank canvas for extensive development opportunities. Explore this property through our detailed video tour to truly appreciate its potential. Whether you seek a new home, a rental investment, or a project for sustainable living, this property holds extensive possibilities just waiting to be realized.
